

Dear Customer

WELCOME TO OUR FIRST NEWS BULLETIN

It's been a very tough couple of years, and hope you've all managed to get through relatively unscathed.

At The Hamilton Kitchen Company we have made a number of changes throughout the last couple of years to overcome the ever-changing business landscape.

From expanding our delivery and sales team to temporary kitchens and appliances for customers to use to overcome appliance supply issues. The new team allows us to develop the business further and continue to provide the level of service we're passionate about.

The focus of this news bulletin is to let you know about our new products and ranges.

This issue is to let you know about our new Hamilton 72 range which is a great product to combat any delays you may well be experiencing. As an off the shelf product, we can deliver it to you in 72 Hours!

See below for our other new products, services and ranges with further info to come in the next issues.

We thank you for your continued support and hope we can help you deliver exciting new projects in the near future.

SO, WHAT'S NEW?

Hamilton 72 Kitchens Delivered to site in 72hrs.

HAMILTON 72

72 relates to the hours to be delivered to site (subject to stock).

Even though our main and original cabinetry is built to order in as little as 3 weeks, we have brought in a line of Kitchen cabinets and doors specifically available in 72hrs with a great price point.

There are 60+ Clickbox cabinets that multiply up to 110+ combinations of cabinets, and there are 4 x colours (White, Light Grey, Urban Oak and Graphite). A lot of different designs can be made with this many combinations.

The cabinets are made from 18mm Finsa Board with a 9mm back panel and solid top. They're really very good. We've tried and tested and the feedback is great, and we have examples in the studio.

The beauty of these cabinets is that they go together in as little as 30 seconds. There are no cam or dowels, they all click together. Originally designed by UniClic, the people who make the flooring.

For those who don't necessarily need designs completed, and know what they want, these are great, quick, and easy, and have [attached an order form and cabinet and door matrix.](#)

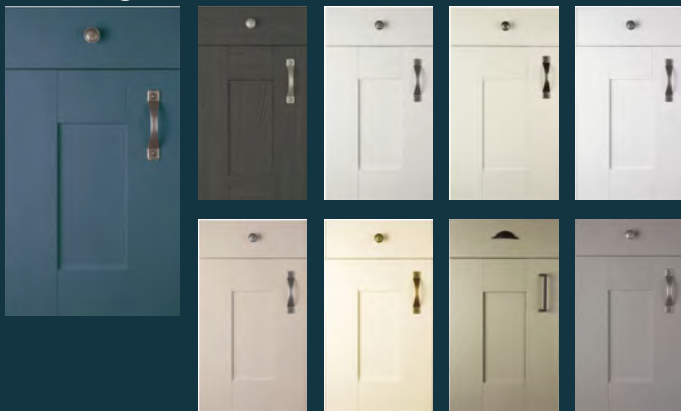

We love our ability to design with made to order cabinets and doors, which in turn means we can design non-standard sizes, which in turn means we have unlimited design capabilities. Due to construction of the ClickBox, cabinets can be easily ripped down on-site (unlike rigid built glued and dowelled) to make a non-standard cabinet.

To compliment the cabinets we have 3 x Styles of doors (Shaker, Handleless and Slab) and several colours in both Gloss and Super Matt at the same super price. All door samples available at the studio.

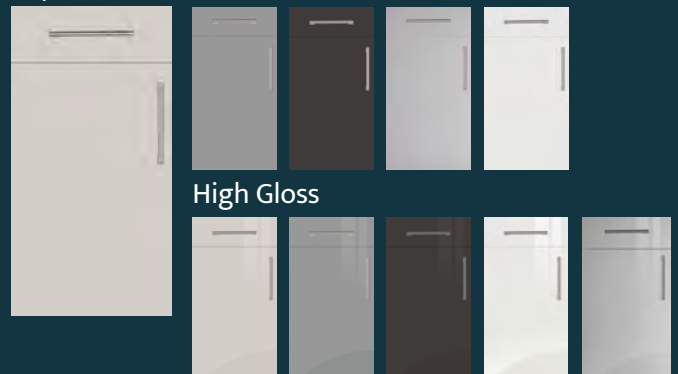

Wilton: 5 Piece Shaker (22mm)

Matt Oakgrain

Firbeck: Slab Door (18mm)

Super Matt

Jayline: J Handle (20mm)

Super Matt

All of these doors are available in made to measure sizes, there are limitations, and come with a slightly longer lead time.

Mix & Match – the Clickbox cabinets may be perfect for you, but the above 3 ranges not quite right. Not a problem, we have a huge selection of doors available from 72hrs to 10 working days.

RRP £4635.84 plus VAT*
excludes worktops, appliances and handles.

* prices correct at going to press.

PROMOTIONS

Over the course of the last couple of years we've become Official Retailers for Miele, AEG, Quooker Indesit and Zanussi. Don't worry, we're still retailers for Smeg, Caple, & Elica, and all at prices matched to the internet big boys (and sometimes even better)!
